Ethereal yet remarkable presence, Art Chandelier combines tradition and innovation in a modern reinterpretation of the classic chandelier. Continuing the minimalist and sophisticated language of its predecessor, —the Art suspension lamp—, this new creation offers a fixed figure in three heights, providing both focused and indirect light. An exclusive lamp specially selected for unique spaces, it is part of a limited production within the collection.

Accessory for trimless cable

Wire Trimless Accessory is a collection of accessories for fitting tensioners and cables to Arkoslight luminaires suspended directly from the ceiling with any visible ceiling rose or fixings. This achieves a minimalist application with a visually tidy finish.

With Wire Trimless Accessory the items adjacent to the ceiling of the standard product (ceiling roses, fixings, driver boxes, etc.) are concealed by a simple recessed application.

Wire Trimless Accessory reduces the visual impact of the installation leading to extremely minimalist aesthetics. The wires come out of the ceiling material as a part of the structure. This detail creates a much purer, more essential layout, particular when several luminaires are fitted in an arrangement.
