• Solar charged • Motion sensor turns light on
• Easy installation with no cables needed • Long LED lifespan (25,000 hours)

The solar-powered Justina series by Danish design duo Says Who has a round, classic design with a large light surface that lights up automatically when the sensor detects motion. Perfect for placing along the facade of your house or next to your front door to create visibility when you get home – without having to fumble for a light switch. Easy installation with no cables needed.
