Inspired by the solemnity of ceremonial candles, Cirio is the new expression of an ancient culture of lighting. A design that enhances corners with serene subtlety. From the simple canopy hangs a single LED light capsule. Four shade options dress it, offering different types of light depending on the desired illumination.

The Cirio family has four shade options. The handcrafted Sargadelos porcelain, whose translucence bathes the white shade in amber, provides a diffuse and very warm light. In its striped version, it also gains texture and three-dimensionality. For greater luminous efficiency, opal glass offers a more intense and economical alternative. Finally, the opacity of brass allows for focused, directional lighting.
