Products with electronic ballasts / drivers must not be installed on the same electrical circuits as products with inductive loads, for example magnetic fluorescent luminaires, motors or ventilators. Inductive loads can generate excessive voltage surges which can damage electronic ballasts.

This product contains a light source of energy efficiency class D to Regulation (EU) No 2019/2015 (01/09/2021).

The light source in this luminaire shall only be replaced by the manufacturer or his service agent or a similar qualified person.

Please read the instructions carefully before commencing assembly

Les luminaires utilisant un ballast électronique / drivers ne peuvent être installés sur le même circuit que des appareils avec charges inductives, tels que luminaires fluorescents magnétiques, moteurs et ventilateurs. Les charges inductives peuvent générer des voltages excessifs et ainsi endommager les ballasts électroniques.

Ce produit contient une source lumineuse de classe d'efficacité énergétique D selon le règlement (UE) n ° 2019/2015 (01/09/2021).

La source lumineuse de ce luminaire devrait seulement être remplacée par le fabricant ou par un de ses agents de maintenance ou par une personne qualifiée similaire.
