IT – La forma del cubo incastonato nel muro è solo un effetto prospettico. La lampada, costruita in alluminio pressofuso, sporge dalla parete solo di pochi centimetri per distribuire nell'ambiente un potente flusso di luce indiretta.

EN – The cube shape pressed into the wall is only a perspective effect. In fact, the lamp emerges from the wall by only a few centimetres to distribute a powerful flow of indirect light to the living environment.

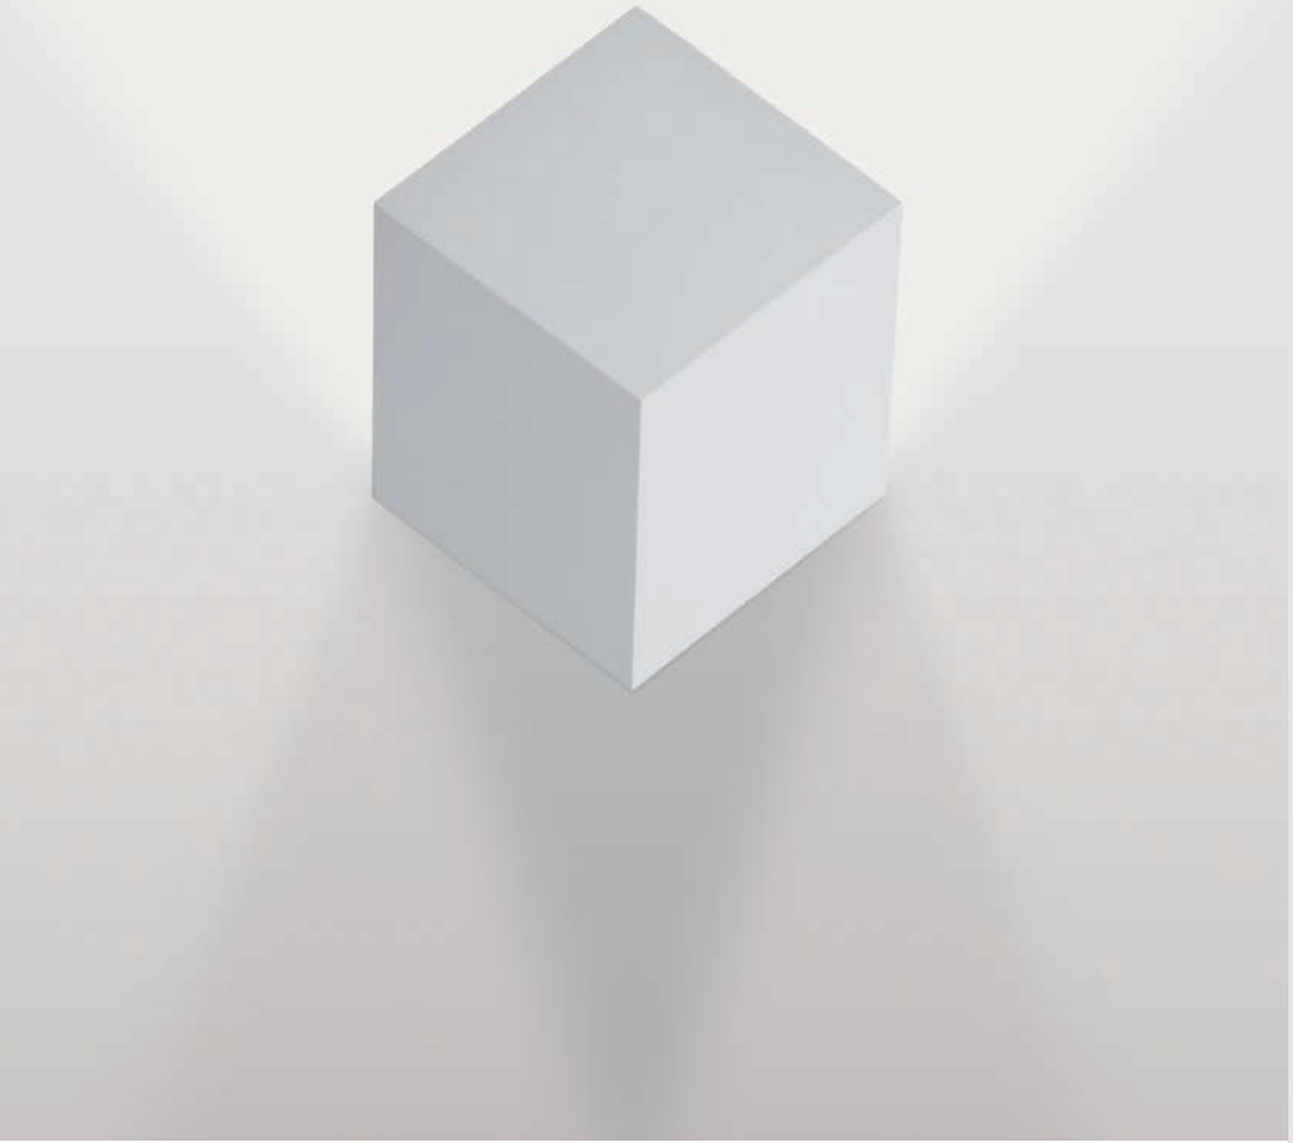

DE – Der Eindruck eines in der Wand steckenden Würfels ist ein rein perspektivischer Effekt. Die aus Aluminium–Druckguss hergestellte Leuchte ragt nur wenige Zentimeter aus der Wand heraus und verstreut im Raum einen kraftvollen Strom indirekten Lichts.

FR – La forme d'un cube encastré dans le mur n'est qu'un effet de perspective. La lampe, formée d'aluminium moulé sous pression, ne se trouve en saillie sur la paroi que de quelques centimètres, afin de diffuser dans le milieu ambiant un puissant flux de lumière indirecte.

ES – La forma del cubo engarzado en la pared es sólo un efecto de perspectiva.
La lámpara, construida con aluminio moldeado a presión, sobresale de la pared sólo unos centímetros para distribuir en el ambiente un potente flujo de luz indirecta.
